

FORMATION DOCUMENT PACKAGE

iLaunchify, Inc. Signing Instructions and Order of Operations

DRAFT FOR REVIEW BY LEGAL COUNSEL. This document was prepared as a working draft from standard startup formation practice. It has not been reviewed by a licensed attorney and is not legal advice. Have counsel review and adapt it before signing. Bracketed items must be completed.

Read this first

This package contains working drafts of the documents that turn a filed Certificate of Incorporation into an actual company with owners, officers, and assigned intellectual property. They are drawn from standard startup formation practice and are internally consistent with one another. They have not been reviewed by a licensed attorney.

Two founders, a 70/30 split, vesting, and an IP assignment covering work done before incorporation are exactly the facts that make a lawyer's hour worth buying. Have counsel review this package before signing, particularly the Restricted Stock Purchase Agreements. Once signed, these documents are difficult and expensive to unwind.

What is in this package

#	Document	Signed by
01	Action by Written Consent of the Sole Incorporator	Pavel Georgiev, as incorporator
02	Bylaws (with Secretary certification)	Simona Simeonova-Georgieva, as Secretary
03	Action by Unanimous Written Consent of the Board	Both directors
04	Restricted Stock Purchase Agreement — Pavel Georgiev	Pavel and the Company (signed by Simona)
05	Restricted Stock Purchase Agreement — Simona Simeonova-Georgieva	Simona and the Company (signed by Pavel)
06	Section 83(b) Filing Instructions and Tracking Sheet	Reference only
07	Stock Ledger and Capitalization Table	Secretary certifies
08	Invention Assignment Agreement — Pavel Georgiev	Pavel and the Company
09	Invention Assignment Agreement — Simona Simeonova-Georgieva	Simona and the Company
10	Indemnification Agreement — Pavel Georgiev	Pavel and the Company (signed by Simona)
11	Indemnification Agreement — Simona Simeonova-Georgieva	Simona and the Company (signed by Pavel)

Note on cross-signing: no officer signs a document on behalf of the Company where he or she is also the counterparty. Pavel signs the Company side of Simona's agreements and Simona signs the Company side of Pavel's. This is why the Board consent elects each of you to an office with signing authority.

Fill these in before you sign anything

Every document contains bracketed placeholders. Search each file for the opening bracket character and complete all of them. The values must match across every document or the package is inconsistent.

Placeholder	Where it comes from	Value
[DATE OF INCORPORATION]	The file-stamped Certificate of Incorporation from Delaware	_____
[PRINCIPAL OFFICE ADDRESS, GEORGIA]	Your operating address	_____
[ADDRESS] (each founder)	Each founder's home address	_____
[SOCIAL SECURITY NUMBER]	For the 83(b) election only	_____
[YEAR]	Tax year of the stock transfer	_____

Also confirm the exact legal name. Every document says "iLaunchify, Inc." If Delaware issues the certificate under a different rendering, including spacing or the comma, change it everywhere.

Order of operations

Sequence matters. Signing out of order creates documents that reference things that do not yet exist.

STEP 1 — File the Certificate of Incorporation.

Delaware One Stop, stock corporation with directors liability, 10,000,000 shares at \$0.00001 par value. Wait for the file-stamped certificate before signing anything in this package. That date becomes the Effective Date everywhere.

STEP 2 — Get the EIN.

Free from the IRS online, takes minutes. You need it for the bank account.

STEP 3 — Sign the governance documents, in this order.

- Document 01, Action of Incorporator. Pavel signs as incorporator, appointing both directors and then resigning.
- Document 03, Board Consent. Both directors sign. This adopts the Bylaws, elects officers, and authorizes the stock issuance.
- Document 02, Bylaws. Simona signs the certification page as Secretary, dated the same day as the Board consent.

STEP 4 — Issue the stock and take the money.

- Both Restricted Stock Purchase Agreements are signed (documents 04 and 05).
- Pavel actually pays \$56.00 and Simona actually pays \$24.00 to the Company. Use a traceable method. A wire or check that leaves a record is the point; cash from a wallet is not.
- Complete Exhibit D receipts and Exhibit A stock powers. Sign Exhibit C if married, or mark it not applicable.
- Record both issuances in document 07, the stock ledger.
- Write down the transfer date. It starts the clock in Step 5.

STEP 5 — File the 83(b) elections within 30 days. This is the one that cannot be fixed.

Each founder files individually. The Company cannot do it for you. Use Exhibit B of your own Purchase Agreement, or IRS Form 15620. Follow document 06. Save proof of filing permanently.

STEP 6 — Sign the IP assignments.

Documents 08 and 09. Complete Exhibit A on each, listing prior inventions or confirming there are none. Section 3.3 assigns the work you both did before the company existed, which is the whole reason this document matters for you specifically.

STEP 7 — Sign the indemnification agreements.

Documents 10 and 11. Pavel signs the Company side of Simona's and vice versa, as authorized in the Board consent.

STEP 8 — Open the bank account, then qualify in Georgia.

Mercury will ask for the certificate, the EIN letter, and the Board consent authorizing the account. Then foreign qualify with the Georgia Secretary of State and file the Georgia initial annual registration within 90 days.

Where the minute book lives

Keep signed PDFs of everything in one place, backed up, and not only in one person's personal email. Every investor, acquirer and lender will ask for this package, and the version that matters is the signed one. A shared drive folder called "Corporate Records" with subfolders by year is sufficient at this stage.

Things this package deliberately does not include

- An equity incentive plan. The Board consent reserves 2,000,000 shares for one, but adopting the plan and granting options requires a 409A valuation. Do that when you have someone to grant to.
- Vesting acceleration on a change of control. Section 2.10 of each Purchase Agreement says so explicitly. Acceleration is normally negotiated at a financing or an acquisition, and granting it to yourselves now can complicate both.
- A founders' agreement covering roles, decision rights and deadlock. With two directors and a 70/30 split, a deadlock at board level is a real possibility. Worth discussing with counsel.
- Employment agreements or offer letters. Not needed while neither of you draws a salary, but required once payroll starts.

A note on the two of you

The board consists of exactly two people who share a surname. That is entirely lawful and extremely common at formation. Be aware that it means there is no disinterested director available if a conflicted transaction ever needs approval, and that the indemnification agreements contemplate determinations by disinterested directors or independent counsel. Investors will expect the board to expand when they invest. None of this is a problem today; it is simply something to know before someone else raises it.
